Who We Are

Romagna+ is a youth organization from Forlì, Italy, involving young people actively involved in **Erasmus+ projects**. We came together with a shared goal of encouraging young people to be more **active citizens**. Our main goals are to raise awareness about the **Sustainable Development Goals** (SDGs) and provide the tools needed to tackle social issues effectively among our peers.

Project description

Reasoning Behind the Project

In today's rapidly changing job market, young people are experiencing greater job mobility and longer transition periods before securing stable employment. This shift makes it essential to ensure a smooth **transition from education** to the workforce while addressing the risks associated with **being neither in employment, education, nor training (NEET)**. Prolonged disengagement from both education and the labor market can have significant negative consequences—not only for the individuals affected but also for society as a whole. By tackling these challenges proactively, we can equip young people with the skills and confidence needed to navigate the job market successfully.

Project Aim

The Beat the NEETs project aims to enhance **entrepreneurship skills** among young participants, focusing on employability through engaging non-formal learning sessions, interactive workshops, and creative art activities. Our goal is to equip young people with essential **soft and transferable skills**, enabling them to maximize their potential in the workforce.

Additionally, we empower youth facilitators to become agents of change within their communities. By providing them with the necessary tools, methods, and knowledge, we encourage them to **support and inspire their peers**, particularly in areas where employment opportunities are scarce.

Through this initiative, we not only develop skills but also stimulate **critical thinking** and **capacity building**, ensuring that young people are prepared to take charge of their professional and personal growth in an ever-evolving job market.

Participants

+18 YOUTH WORKERS

- We are looking for participants who are eager to learn and share soft skills that can positively influence NEETs (Not in Education, Employment, or Training) in their communities. Our ideal candidates are passionate about addressing the NEET issue in their country and are committed to creating positive change locally.
- We are particularly interested in individuals already involved in **Erasmus Plus associations, local government bodies, or volunteering with young people**. However, if they are not currently engaged in these organizations, we welcome those with a strong interest in education, social inclusion, and youth employability.
- The perfect participants will be **dynamic, proactive**, and willing to share their experiences and ideas, contributing to a collaborative and impactful project.
